The admission to the four-semester College of tourism and leisure industry in Bad Gleichenberg, run by the private "Steirischer Hotelfachschulverein", is subjected to the conditions of the ABGB (Austrian Civil Code). This contract for admission has to be renewed each year. This application will be accepted by the Steirischer Hotelfachschulverein if it is not rejected within three weeks from receipt by the director and subjects to the minimum number of students of each training focus or school form.

Furthermore I accept that the College of tourism is run as a boarding school. The boarding houses are closed during Christmas, semester, Easter and Whitsun holidays. I fully accept that an exclusion from the boarding house because of serious reasons consequently results in being expelled both from school and boarding house. These reasons include alcohol and drugs abuse, theft among colleagues, fight causing physical injury, unauthorized leaving of the boarding house, bad behaviour with teachers, tutors and colleagues.

By signing the contract I, my parents or respectively the parental guardians agree to regular payment of school fees, especially tuition fees and boarding house costs. I have been informed about the fees for tuition and boarding house. The fees for the tuition and boarding house has to be paid in advance monthly (1st September until 1st May) and will be withdrawn from your bank account. Additionally all fines, legal costs, expenses for collecting fees and information must be paid if there are any to the "Steirischer Hotelfachschulverein" or its legal proxy (e.g. lawyer). The fees for tuition and boarding house for a term becomes immediately due in full if there is a default of payment. In case of a cancellation of the enrolment (in writing until the 1st September) 40 € are charged. In case of a cancellation after this date the amount of reservation can not be refunded.

I accept the effective curriculum and will take part in all the lessons.

If an exclusion from school or the boarding house is pronounced during the term or there is a voluntary withdrawal, the fees for tuition and boarding house are payable for the whole term. A refund will only be granted for the proportional costs for catering. This regulation also applies to guest students. Fees for tuition and boarding house are to be regarded as one annual fee and therefore proportional refunds of the boarding house fee are not paid in case of early conclusion of the last term due to inadequate grades. The signatories are all together held responsible for the above mentioned costs.

The student and parent or rather guardian permit the Tourismsschulen Bad Gleichenberg (short TSBG) the irrevocable right to use images and videos of, with and about students of the TSBG, which are taken within the school education, in-house or external courses, practical assignments and around the school environment. This material is used mainly for promotional purposes (website, press releases and promotional materials) and school's publications.

All the parties to the contract and signatories agree in case of disputes in this legal matter regardless of the amount involved on the jurisdiction of the district law courts for civil law in Graz (in accordance with § 104 Jurisdiktions-norm).

All the signatories obligate to give immediate notice to the headmaster if their home address has changed. Otherwise delivery to the previous address regardless of the actual place of residence is legal.

The school and boarding fees will be paid by: mother father _____
